### TENURE-TRACK FACULTY POSITION

Neural and psychological mechanisms of decision making

The Center for Neural Science and the Department of Psychology at New York University invite applications for a tenure-track faculty position from candidates with interests in **neural and psychological mechanisms of decision making**. The successful candidate will contribute to a joint Neural Science, Psychology, and Economics initiative, the Center for Neuroeconomics and Decision Making at NYU. Particular consideration will be given to candidates studying human decision making with theoretical, psychophysical, and brain imaging approaches. Candidates working on decision making in other systems and with other techniques will also be considered. The primary criteria for the appointment will be excellence in basic research and teaching.

Applications at the level of Assistant or Associate Professor are preferred. The appointment will begin September 1, 2006, pending final administrative and budgetary approval. Although there is no official deadline, application review will begin in December 2005. Please send a curriculum vitae, a statement of research and teaching interests, copies of recent relevant publications, and three or more letters of reference to:
