TENURE-TRACK FACULTY POSITION
Learning, Memory and Plasticity

The Center for Neural Science at New York University invites applications for a tenure-track faculty position from candidates with interests in **cellular or molecular mechanisms of learning, memory, and plasticity** to complement existing research in this area.

Applications at the level of Assistant or Associate Professor are preferred. The appointment will begin September 1, 2006, pending final administrative and budgetary approval. Candidates working on learning and memory at the systems level will also be considered. Although there is no official deadline, application review will begin in December 2005. Please send a curriculum vitae, a statement of current research and teaching interests, copies of recent relevant publications, and the names and addresses of three or more individuals willing to provide letters of reference to:

Professor J. Anthony Movshon
Center for Neural Science
New York University
4 Washington Place, Room 809
New York, NY 10003.
