If you are unable to enter the starting year for an ongoing project application, please try the two methods described on the next page.

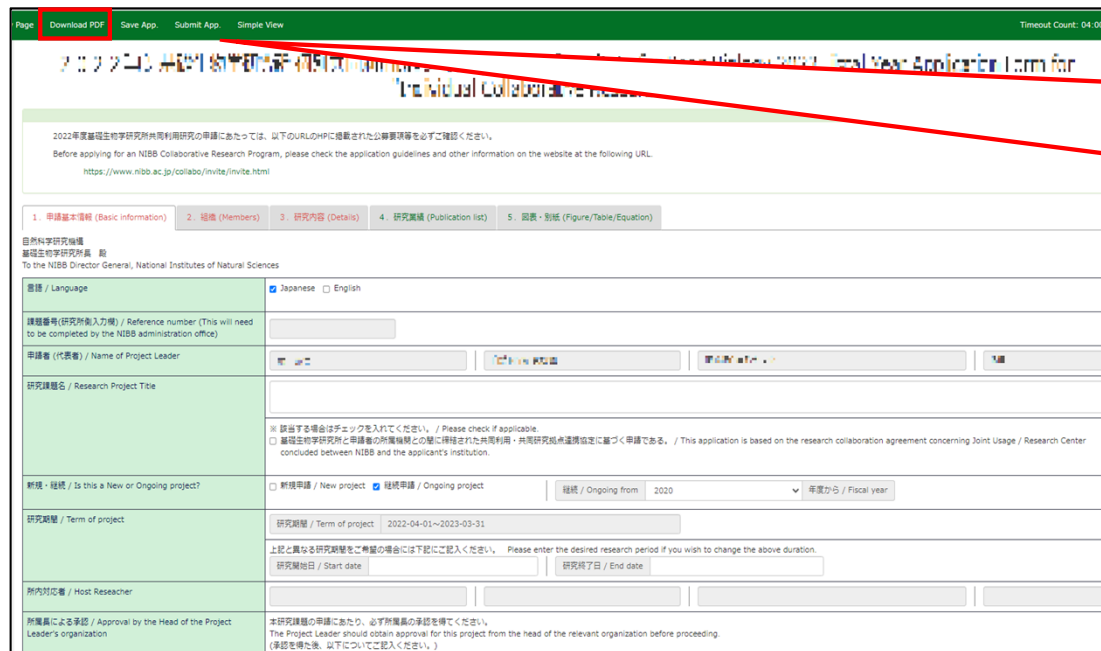

**Entering the Starting Fiscal year of your ongoing project field is required if you have checked the [Continuing project] checkbox. If this field is not filled in, you will not be able to submit an application.**

# Method 1: Lower the browser's (web page) display magnification

The screenshot shows a web browser window with the address bar displaying 'nous-dev.nins.jp/form/editeoperator'. The browser's zoom control is highlighted with a red box, showing '80%'. A red double-headed arrow points from this zoom control to a dropdown menu in the form. The dropdown menu is currently set to '----未選択----' (Not selected). The form itself contains various input fields and sections, including 'Research Project Title', 'Is this a New or Ongoing project?', 'Term of project', 'Host Researcher', and 'Approval by the Head of the Project Leader's organization'.

Lower your browser's display zoom factor. When the input field for the starting fiscal year expands and the message "----未選択----" appears, select the appropriate fiscal year from the drop-down menu.

# Method 2: Download the application form in PDF format and check the contents.
