

Time Table

DAY1 March 28, Thu.

Facility Name	Floor	Room Name	Venue Name	9	10	11	12	13	14	15	16	17	18	19	20
Kobe International Conference Center	1F	Main Hall	Room A						General Assembly of PSJ		Opening Ceremony		【PL1】 Linda Buck		
	3F	International Conference Room	Room B								Opening Ceremony Satellite Room		【PL1】 Satellite Room		
		Reception Hall	Room C												
	4F	Meeting Rooms 401+402	Room D		Council of The Physiological Society of Japan										
		Meeting Room 403	Room E												
	5F	Meeting Room 501	Room F		ADInstruments Teaching Workshop										
		Meeting Room 502	Room G		ADInstruments Teaching Workshop										
		Meeting Room 503	Room H												
		Meeting Rooms 504+505	Room I												
Kobe International Exhibition Hall, No.2 Building	2F	Meeting Room 2A	Room J												
		Meeting Room 2B	Room K												
	3F	Meeting Room 3A	Room L												
		Meeting Room 3B	Room M												
	1F	Convention Hall	Poster Session/ Exhibition											Welcome Reception	

PL	Plenary Lecture
ST	JSPFSM-coorganized Special Talk
SL	Special Lecture
ISPCS	International Scientific Program Committee Symposium
LOCS	Local Scientific Program Committee Symposium
S	General Symposium
SS	Sponsored Symposium
LS	Luncheon Seminar
EL	Educational Lecture

Time Table

DAY2 March 29, Fri.

Facility Name	Floor	Room Name	Venue Name	8	9	10	11	12	13	14	15	16	17	18	19	20
Kobe International Conference Center	1F	Main Hall	Room A		[PL2] David Julius	[S1] Molecular		Advances in understanding cerebellar LTD and motor learning: A celebration of Masao		[S14]	[SL1] Yasushi	[S26] Synaptic remodeling and beyond in health and				
	3F	International Conference Room	Room B			[S2] Thermal biology: A new world of life		[LS1]		[S15] Thermal biology: A new world of life	[SL2] Heping	[S27] Regulation of cell functions by				
		Reception Hall	Room C			[S3] Gastrointestinal microbiome and		[LS2]		[S16] Gastrointestinal Control of Energy Metabolism (CAPS, China)	[SL3] Uhtake Oh	[S28]	Molecular evidences Link Physical Exercise to Cardiovascular Improvement			
	4F	Meeting Rooms 401+402	Room D	[EL1] J	Regulation of the autonomic functions	[S4] Teaching physiology; International		[LS3]		[S17] Teaching hysiology; International perspectives	[SL4] Robert G.	[S29] New insights into central mechanisms underlying hypertension				
		Meeting Room 403	Room E			[S5] New Translational Insights on Cardiopulmonary		General Assembly of FAOPS		[S18] Dynamics of membrane trafficking and		[S30]	Substance abuse and addiction ~ From basic science to regulatory			
	5F	Meeting Room 501	Room F			[S6] Facilitation of Recovery of Motor Function		[TW1]		[S19] Mitochondrial Physiology and		[S31] Genomics of Sports and Exercise				
		Meeting Room 502	Room G			[S7] From synaptic and network plasticity to behavior (CAPS, China)		[LS4]	Adaptation mechanisms to external or internal environmental changes of respiratory system	[S20]		[S32] Membrane transporters related to diseases and drug				
		Meeting Room 503	Room H			[S8] Biophysical mechanisms underlying nano-vibrations of the sensory epithelium in hearing orga		GAKUSAI		[S21] New Paradigm in Physiology and Pathophysiology of Coagulation-fibrinolysis System		[S33] New insights into Endocrinology and				
		Meeting Rooms 504+505	Room I			[S9] Metabolic syndrome and bone metabolism (TPS, Thailand)		[LS5]		[S22] Proton signalings and proton-related functions	Life Style Related Diseases in Asia: Underlying Mechanisms, Functions and	[S34]				
Kobe International Exhibition Hall, No.2 Building	2F	Meeting Room 2A	Room J			[S10] Neural circuit basis		Glia and Neurological Diseases: from Physiological to Pathological Roles of		[S23]		[S35]				
		Meeting Room 2B	Room K			[S11]		Advances in the mastication and swallowing physiology to prepare for an		[S24] Complexity and Diversity of Motility Regulation in		Frontiers in Ca2+ release research in skeletal muscle: 50th anniversary from				
	3F	Meeting Room 3A	Room L			[S12]		New insights into baroreflex function for cerebral and cardiovascular regulation:		[S25] Calcium signaling in heart						
		Meeting Room 3B	Room M			[S13] The role of the sympathetic nerves in health and disease		Seeking Gender Equality in Science. A		Meet the Lecturers						
	1F	Convention Hall	Poster Session/ Exhibition		Mounting time	Poster Viewing		Poster Viewing Core Discussion		Poster Viewing	Removal time					
Exhibition																

PL

Plenary Lecture

ST

JSPFSM-coorganized Special Talk

SL

Special Lecture

ISPCS

International Scientific Program Committee Symposium

LOCS

Local Scientific Program Committee Symposium

S

General Symposium

SS

Sponsored Symposium

LS

Luncheon Seminar

MLS1

Mini Luncheon Seminar about gender equality in science

GAKUSAI

GAKUSAI (interdisciplinary) Seminar

EL

Educational Lecture

PVCD

Poster Viewing Core Discussion time

Time Table

DAY3 March 30, Sat.

Facility Name	Floor	Room Name	Venue Name	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21
Kobe International Conference Center	1F	Main Hall	Room A				【PL3】 Yoshinori		【S36】Inter-tissue communications underlying metabolic and feeding control in living body		【LS6】			【S48】Inter-tissue communications underlying metabolic and feeding control in living body			ST Nao Kodaira	
	3F	International Conference Room	Room B						【S37】Primate researches in Asian		【LS7】			【S49】Frontiers in pain physiology - from detection to the survival behavior	【SL5】 Masashi			
		Reception Hall	Room C						【S38】Cutting-edge research topics on skeletal muscle plasticity in health and diseases		【LS8】			【S50】Maternal influences on offspring development (AuPS, Australia)	【SL6】 Graham D.			
	4F	Meeting Rooms 401+402	Room D		【EL2】 J				【S39】Cutting—Edge Optical Imaging of Neuronal Circuits and Synapses		【LS9】			【S51】Cutting-edge Research in Neural Network				
		Meeting Room 403	Room E						【S40】Social communication through					【S52】Sports and				
	5F	Meeting Room 501	Room F						【S41】Lever aging novel techniques to research and translate synaptic transmission and plasticity (ISPP,			【S47】New Frontiers in Regenerative Medicine of Renal Function		【S53】Dynamic signaling of axon and presynaptic terminals revealed by direct recordings	【SL7】 Laura			
		Meeting Room 502	Room G		Physiological function of royal jelly contributing to healthy longevity ~ The effectiveness of Locomotive syndrome, Menopausal disorders,			【S42】		【TW2】			【S54】Ca2+ signaling in health and disease					
		Meeting Room 503	Room H						【S43】TRP channels and inflammation/fibrosis		【LS10】		【S55】Brain pathways linking between emotion, behaviour					
		Meeting Rooms 504+505	Room I		Cutting-edge approaches to long-lasting questions and novel aspects of inward rectifier K+ channels – A quarter-century anniversary of cDNA isolation (ISPP,			【S44】		Iran Lunch			【S56】	Optical neuroscience: reading and manipulating neural computation behind cognition, memory, and behavior				
Kobe International Exhibition Hall, No.2 Building	2F	Meeting Room 2A	Room J					【S45】New molecular insights into the synaptic tagging and capture hypothesis					【S57】Alternative GPCR and G-protein signaling in cardiovascular disease and therapy					
		Meeting Room 2B	Room K					【S46】Plasticity of inhibitory signaling in Epilepsy: New Physiological Mechanisms					【S58】Zinc physiology					
	3F	Meeting Room 3A	Room L								Outreach activities with school students *Practice							
		Meeting Room 3B	Room M							Outreach activities with school students *Lecture			【S59】Contribution of microglia in health and disease of the brain					
	1F	Convention Hall	Poster Session/ Exhibition				Mounting time	Poster Viewing				Poster Viewing Core Discussion	Poster	Rem oval time				
				Exhibition														

PL	Plenary Lecture

Time Table

DAY4 March 31, Sun.

Facility Name	Floor	Room Name	Venue Name	7	8	9	10	11	12	13	14	15	16
Kobe International Conference Center	1F	Main Hall	Room A				【SL8】 Julie YH	【S71】Toward understanding the neural basis of memory		Closing Ceremony			
	3F	International Conference Room	Room B		【T1】		【SL9】 Hideyuki	【S72】Neurobiology of reward system in the Brain (ISPP, Iran)		Open to Public Lecture			J
		Reception Hall	Room C	The Social Brain: Recent Progress in	【S60】Hibernation and Torpor in mammals			【S73】New Twists in Understanding Taste					
	4F	Meeting Rooms 401+402	Room D	Understanding Molecules and Networks of	【S61】			【S74】	The consequences of preterm birth, intrauterine growth restriction and hypoxia-ischemia (PSNZ, New Zealand)				
		Meeting Room 403	Room E	Integrative neural processing of sound information in	【S62】			【S75】	Ca2+-permeable channels of excitable and non-excitable cells in health and disease				
	5F	Meeting Room 501	Room F	New insights into the cellular and molecular mechanisms of neurological	【S63】Implication of tonic inhibition for Brain function			【S76】Physiome for organ function (KPS, Korea)					
		Meeting Room 502	Room G		【S64】			【S77】Advances in the role of adipocyte in health and					
		Meeting Room 503	Room H	Intervention factors of neuronal irregular development:	【S65】			【S78】“Ins” and “outs” of smooth muscle					
		Meeting Rooms 504+505	Room I		【S66】Inflammation and Atherosclerosis		Pulmonary hypertension and inflammation: the interdependent processes triggered by	【S79】Mechanomedicine					
Kobe International Exhibition Hall, No.2 Building	2F	Meeting Room 2A	Room J	The potential roles of NMDAR in neurological and neuropsychiatric disorders:	【S67】			【S80】	Daily /adaptable Yin-Yang transitions in diverse physiological processes coordinated by multi-cellular Chrono-molecular signal				
		Meeting Room 2B	Room K		【S68】			【S81】Mechanisms of systemic beauty and health					
	3F	Meeting Room 3A	Room L	Contribution of brain research to the understanding of the physiology, psychology and	【S69】		Optogenetics: Contributions to Physiology and Medicine Beyond Brain Circuit-Breaking	【S82】Amygdala Neuronal Circuits in Adaptive Behaviors					
		Meeting Room 3B	Room M		【S70】			【S83】Neurobiology of obesity and its metabolic comorbidities					
	1F	Convention Hall	Poster Session/ Exhibition		Mounting time	Special Sessions for Awardees				Removal time			
						Exhibition
