Outline	Lectures describing recent progress and cutting-edge techniques in the physiological science field.
Learning objectives	To acquire new knowledge and a wide range of information in physiological sciences
Grading policy	<p>Attendance of at least half of each of the first half (1st to 4th lectures) and the second half (5th to 8th lectures) is required for credit acquisition.</p> <p>After the first semester, students are required to select one lecture from the first 4 lectures (1st-4th) and prepare and submit a report (about 600 words in English). Submission deadline: Wednesday, July 17, 2024</p> <p>After the end of the second semester, choose one lecture from the last 4 lectures (the 5th to the 8th) and submit a report (about 600 words in English). Submission deadline: Wednesday, February 5, 2025</p> <p>The grade is determined based on the quality of the submitted report, which is indicated by A (corresponding to score 80-100), B (70-79), C (60-69), or D (less than 60); A, B or C is 'passed.'</p>
