Outline	Basic knowledge necessary for brain science can be learned through an e-learning system with lecture and small tests.
Learning objectives	To obtain the foundation of the brain science and understand the fundamental subjects correctly.
Grading policy	Students are required to view all the lectures one by one and complete Challenge Quizzes set at the end of respective topics as well as Mini Tests. And students will be assigned to take the Assessment in the designated period. The grades will be determined by the progression status of Mini Tests and the scores of the Assessment. Students can take the Assessment only once following period 1st semester: from June 3 to August 2, 2024.
