

Professor Position at Department of Homeostatic Regulation,
National Institute for Physiological Sciences, National Institutes of Natural Sciences (Japan)

National Institute for Physiological Sciences (NIPS), the National Institutes of Natural Sciences (NINS), invites applications for the position of Professor. Please recommend suitable candidates and disseminate this posting to those who wish to apply.

1. Position

Professor, one position

2. Research field

NIPS is an inter-university research institute in the field of basic medical science that aims to understand the functions and mechanisms of the human body and brain. This position is open to researchers who aim to understand the mechanisms underlying the development in early mammalian embryos, and to contribute to reproductive and regenerative sciences by applying the gained knowledge. We call for internationally outstanding individuals who have excellent achievements in the above research fields and a willingness to actively contribute to the development of the relevant research community.

The successful applicant will be expected to engage in collaborative research which is an important mission of NIPS, especially in the planned collaborative project on “Production of advance animal models” of mice and rats. In addition, as a faculty member of the Graduate University for Advanced Studies (SOKENDAI), the successful applicant will also be in charge of graduate education.

3. Qualifications

Applicants should have a doctoral degree or equivalent research achievement.

4. Period of appointment

Five years. Renewable after a qualification review.
